School classes begin at 8:10 a.m. Sixth grade students should enter the main building at 8:05 a.m. through the auditorium doors. Seventh grade students should enter the main building by the north middle entrance and eighth grade students should enter the building by the north gym entrance. Students needing help from a teacher or wishing to use the library will be admitted after 7:50 a.m. through the north middle entrance. A signed early entrance pass will be required and students must remain in that

teacher's classroom or the library until 8:05 a.m. Upon arrival during inclement weather, seventh and eighth grade students are to enter the building by the north gym entrance and go to the gym balcony. Sixth grade students are to enter the building through the auditorium doors and sit in the auditorium. Following dismissal by staff members at 8:05 a.m. from either a classroom, the library, the auditorium, or the balcony, students may go to their lockers.

Students should leave the school premises by 3:25 p.m. unless they are participating in a school-sponsored activity. Once students leave the building they may not come back into the building. Students will not be kept past 4:15 p.m. for individual help or for discipline reasons unless prior arrangements have been made

Attendance Regulations

Students are counted absent when not present at school for any reason. The following regulations pertain to absences:

1. Parents are required to notify the school of a student's absence.
2. If parents have not called by 9 a.m., school personnel will attempt to contact the parents at home or at work.
3. Students are required to make up class time due to unexcused absences.
4. In order to meet the attendance requirements, students must be in attendance in a class or a school approved activity a minimum of 156 times per school year.
5. Students accumulating twelve (12) absences in the same class during the year will be contacted by a school administrator. A letter and copy of the attendance policy will be sent to the parents informing them of the twelve absences.
6. Parents will be notified again when students accumulate eighteen (18) absences in the same class during the year. A conference with the parents will be required. The County Attorney or DCF may be contacted.
7. Twenty-four (24) absences in the same class during the year may result in loss of credit for each class affected. Parents will be notified. The County Attorney or DCF may be contacted.

Absence

When a student is unable to attend school, parents or guardians should call the school between 7:00 and 8:30 a.m. Parents should give the student's name, grade, and reason for the absence. If a parent forgets to call, the school will call the home or the parent's place of business to confirm the reason for the student's absence. Students needing to be excused during the school day should pick up approved early dismissal slips in the office prior to the beginning of class. Notification by a parent or guardian indicating the reason and dismissal time is required. Students are not allowed to leave the school premises during school hours for any reason without the knowledge and consent of school personnel. Permission to leave the school grounds will only be granted upon written or verbal request from the student's parent or guardian. For the safety of the students, parents should report to the office before taking any student from school early. Students who are unable to provide a valid excuse for unconfirmed absences shall be considered as unexcused. School officials shall determine valid excuses.

Tardies

Prompt arrival at school is expected of all students. Late arrival disrupts class and causes loss of instruction time. Any student not in the classroom when the tardy bell rings will be considered tardy.

Procedures:

1. All tardies to class will be dealt with by the classroom teacher. Excessive tardies are detrimental to academic success and are discouraged.
2. Two tardies in any one class in a quarter will result in a student serving a 30-minute detention after school.
3. Three tardies in any one class in a quarter will result in a student being referred to the office.

Behavior

We believe that each person has choices and is responsible for the consequences of those choices. Please refer to the BARK Matrix on page 19 for a more detailed description of the middle school discipline guidelines.

Bullying

USD 418 ANTI-BULLYING GUIDELINES

Current Policy: Bullying by Students, Staff & Parents

The board of education prohibits bullying in any form either by any student, staff member, or parent towards a student or by a student, staff member, or parent towards a staff member on or while using school property, in a school vehicle or at a school-

sponsored activity or event. For the purposes of this policy, the term “bullying” shall have the meaning ascribed to it in Kansas law.

The administration shall propose, and the board shall review and approve a plan to address bullying as prohibited herein. The plan shall include provisions for the training and education of staff members.

Staff members who bully others in violation of this policy may be subject to disciplinary action, up to and including suspension and/or termination. If appropriate, staff members who violate the bullying prohibition shall be reported to local law enforcement. (Approved 3/10/14)

What is Bullying?

According to Kansas statute 72-8256 bullying is defined as:

- (1) Intentional, negative actions intended to harm another person (i.e., aggression)
- (2) Severe, persistent or pervasive acts

Experts also suggest that bullying involves an existing power differential between those who bully and those who are victimized.

Administration and/or staff will consider an act of bullying in violation of district policy if it has any affect on the school day. Administration will act upon any acts of bullying that occur on school grounds, at any school-sponsored activity or event (on or off campus), on school-associated transportation, or through school-owned technology.

To view Kansas statute 72-8256, please click [here](#).

Forms of bullying behavior:

- (1) Physical bullying – Hitting, pushing, tackling, tripping, poking, tugging, or tearing at clothes.
- (2) Verbal bullying – Calling of names, making verbal threats of physical acts (whether or not they are carried out)
- (3) Attacks on property – Writing on lockers, taking objects to keep or display publically, destruction of property
- (4) Social or relational bullying – Ostracism, social exclusion, gossip/“trash talking”/rumor spreading, nonverbal gestures such as eye rolling, directed laughter, mimicking
- (5) Cyberbullying – Bullying by use of any electronic communication device through means including, but not limited to, e-mail, instant messaging, text messages, blogs, mobile phones, pagers, online games and websites (i.e., circulating electronic images or videos, insulting text messages, harassment through online games, harassment through social media).

Reporting & Investigating Bullying

Students, families, and staff should report incidents of bullying to the Guidance office or Principal’s office. Students may first report a bullying incident to a teacher who will then either report the incident to one of these offices or help the student report the incident.

Staff will use the attached reporting form to aid in tracking incidences of bullying. These forms will be kept in the principal’s office.

A staff member from the Principal’s office or Guidance office has responsibility to investigate reported incidences of bullying. Upon completion of the investigation, administration will take action regarding the reported bullying incident. However, they are not at liberty to share the outcome or disciplinary action with the affected party.

The Kansas State Department of Education, in partnership with Kansas Children’s Service League has provided a 24-hour hotline as an additional resource. You can reach the hotline by calling 1-800-332-6378 or emailing 1800children@kscl.org.

Dress Code

We believe that the manner in which a student dresses affects his/her behavior and that appropriate school dress is the responsibility of every student and parent. Students are discouraged from dressing in a manner that may be distracting to the point of upsetting the normal school operation.

1. Tank tops, spaghetti strapped shirts, and lace shirts/blouses may not be worn unless they are worn over or under another shirt (not another tank top and/or spaghetti shirt).
2. Clothing advertising weapons, alcohol, tobacco or other illegal products will not be permitted. Clothing with disruptive or suggestive words or designs will not be allowed.

9. Coats may not be worn in the classroom.
10. Chains attached to billfolds and/or clothing are not allowed in school.

Drugs, Alcohol, and Tobacco

Student consumption and/or possession of any alcoholic beverage, any form of tobacco, including electronic cigarettes, or other controlled substance in or near the school premises, or at any school-sponsored activity is prohibited. Use of these substances by students is illegal and is generally believed to pose significant health risks for children. Should school personnel have knowledge of violations of this policy, law enforcement personnel will be notified.

Violators of school policies in this area will be suspended. When necessary and appropriate, school personnel may provide suggestions for community or area resources that specialize in individual or family assistance in these matters. Participation in such programs would allow consideration of less suspension time.

Policy for Urine Drug Testing of McPherson USD 418 Students Involved in KSHSAA Sponsored Activities Grades 7-12

OVERVIEW

The USD 418 Board of Education, in an effort to protect the health and safety of its students involved in KSHSAA sponsored extracurricular activities from illegal drug and alcohol use and abuse or injuries resulting from the use of illegal drugs and or alcohol adopts this policy for drug testing of students participating in KSHSAA sponsored extracurricular activities. The procedure for random and possible initial drug testing of middle school and high school students participating in KSHSAA sponsored extracurricular activities as defined in this policy is accomplished in conjunction with an independent drug-testing vendor selected by the USD 418 Board of Education. To facilitate random testing, the designated official will provide the vendor with a list of eligible students and in turn the vendor will randomly select up to ten percent (10%) of the eligible high school and up to five percent (5%) of the eligible middle school students for random drug testing at each testing period. The number of students selected for each test will be determined by the designated official. In the event the USD 418 Board of Education requires initial drug testing, each student electing to participate in any extracurricular activity will be required to submit to a urine drug test at the beginning of each school year or if a student is new to the district, within 30 days of enrollment in USD 418. The vendor will send qualified collectors to the school to oversee the collection of all specimens as outlined in this policy and procedure. The vendor will provide Medical Review Officer (MRO) services for interpretation and verification of results. Results are reported to the building principal or designated official by the MRO. Specimens are collected as split specimens.

The random drug testing program is academically non-punitive. This policy is designed to create a safe, drug free, environment for students and assist them in getting help when needed. However, to the extent a violation of this policy would also constitute a violation of the District's policy for Illegal and Controlled Substances (JCDAB), the sanctions of Policy JCDAB will also apply, as will the policies concerning substance abuse in the McPherson Middle and High School handbooks.

Participation in KSHSAA sponsored school extracurricular activities is a privilege. Accordingly, students in extracurricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs and alcohol.

PROCEDURES FOR STUDENTS

a. Informed Consent for Testing

At the beginning of each school year, students and parent/guardian/custodian will complete and sign the Informed Consent Agreement (Exhibit A) and Release of Information Form for Medical Review Officer (Exhibit C). No student may participate in any extra-curricular activity, as defined by this policy, until this form is properly executed and on file with the school. If a student wishes to participate at any point during the school year, these forms must be filed prior to beginning the KSHSAA sponsored activity, or by October 1st, which ever comes first. Transfer students wanting to participate must complete forms upon arrival if wanting to participate in KSHSAA activities that school year.

b. Urine Drug Testing Frequency

All students wishing to participate in KSHSAA sponsored extracurricular activities as defined by this policy may be subject to urine testing for illegal or banned substances as specified in Paragraph 9 below. Up to ten percent (10%) of eligible students in grades 9-12, and up to five percent (5%) of eligible student in grades 7-8 will be randomly tested on up to a bi-weekly basis anytime during the school year. Any student who refuses to submit to urine drug testing will not be allowed to participate in extracurricular activities as defined by this policy. The refusal to submit to a urine drug test will be considered the same as a positive drug test result.

c. Sample Collection

Samples will be collected as outlined under *Vendor Requirements*, Paragraph 6 below.

Any eligible student randomly selected for urine drug testing who is not in school on the day of testing will be tested at the next available testing time. Students not able to provide an adequate urine specimen at the testing time will be unable to participate in KSHSAA sponsored extracurricular activities and the failure will be considered the same as a positive drug test result. Arrangements may be made for special collections at a vendor collection site with prior approval of the building principal or designated official.

d. Tests for Alcohol

Students attending extracurricular activities as may be randomly required to submit to an alcohol breath analyzer test to determine the presence of alcohol.

CONFIDENTIALITY RESULTS

All drug test results are considered confidential information and will be handled accordingly.

VENDOR REQUIREMENTS

At a minimum, the vendor must be able to provide the following services:

a. Random Selection of Eligible Students

Once provided a list of eligible students, the vendor must select the required number of students in a random and confidential manner. Up to biweekly, the vendor will arrange with the designated official a day and time to do the collection of specimens. The schedule will not follow any recognizable pattern. The selected student names will be given to the designated official, who will arrange for these students to report to the collection area.

b. Collection of Urine Specimens

The vendor will oversee the collection of urine specimens as outlined in the **Procedure for Random Urine Drug Testing of McPherson USD 418 Students Involved in KSHSAA Sponsored Activities Grades 7-12**. Chain of Custody forms will be provided by the vendor that meets the criteria of this policy and that of the testing laboratory. Students will be given as much privacy as possible in the obtaining of the specimen.

c. Testing of Urine Specimens

The vendor will have all specimens tested for the specified illicit or banned substances by a qualified laboratory certified by the **Substance Abuse and Mental Health Services Administration (SAMSHA)** following the guidelines of the **Department of Health and Human Services (HHS)**. The testing laboratory should have greater than 10 years experience in toxicology testing and chain-of-custody procedures. All specimens must be initially tested using a highly accurate immuno-assay technique, with all presumptive positive results then confirmed by a **Gas Chromatography/Mass Spectroscopy (GC/MS)** confirmatory test (understanding that no current GC/MS test is available for LSD).

The testing laboratory must be able to test for the following drug classes, substances or their metabolites in collected urine specimens. The building principal may specify specific classes or substances to be tested and advise the vendor prior to random testing.

Alcohol, Amphetamines, Anabolic Steroids, Barbiturates, Benzodiazepines, Cocaine, Metabolites, LSD, Marijuana, Metabolites, Methadone, MDMA (Ecstasy), Nicotine, Opiates, Phencyclidine, Propoxyphene

d. Medical Review Officer (MRO) Services

The vendor will provide MRO services by a licensed physician who is certified by the **Medical Review Officer Certification Council (MROCC)** or the **American Association of Medical Review Officers** as having proven by examination to have had the appropriate medical training to interpret and evaluate drug test results and thus qualified for certification as a Medical Review Officer. Additionally, the MRO must demonstrate a willingness to abide by the **Procedure for Random Urine Drug Testing of McPherson USD 418 Students Involved in KSHSAA Sponsored Activities Grades 7-12** as to the evaluation of positive drug

tests and reporting findings in a timely and confidential manner.

e. Reporting of Random Urine Test Results by Vendor

The MRO will certify all urine drug screens as negative or positive and report positive findings in a confidential manner to the parent and then the building principal by a secure e-mail system.

f. Statistical Reporting and Confidentiality of Urine Drug Test Results

The vendor, testing laboratory, or MRO may not release any statistics on the rate of positive drug tests to any person, organization, news publication or media without expressed written consent of the McPherson USD 418 Superintendent of Schools. However, the vendor will provide the building principal with an annual report showing the number of tests performed, rate of positive and negative tests, and what substances were found in the positive urine specimens.

PROCEDURES IN THE EVENT OF A POSITIVE RESULT

a. Whenever a student's test result indicates the presence of illegal drugs or banned substances or adulteration, the following will occur after the MRO notifies the parent:

(1) The building principal, within 24 hours, will notify the parent/guardian/custodian first, then the student and designated official of any positive results. A written notification from the building principal, by form letter, will be sent to the parent/guardian/custodian by certified mail. The building principal may keep all test results for a period up to two years or 30 days after the student graduates, whichever is shorter.

(2) The student will be notified and be required to submit to five periodical urine tests throughout the next 12-month period at their own expense to retain activity participation eligibility.

(3) If the parent/guardian/custodian or student wishes to contest the results, the vendor will arrange for the split portion of the specimen to be submitted to another laboratory approved by the Board of Education for testing. This is done at parent/guardian/custodian or student expense. Such a request must be made to the building principal in writing within five working days from first notification of positive test results.

(4) The MRO may use quantitative results to determine if positive results on repeat testing indicate recent use of illicit or banned substances or the natural decline of levels of the illicit or banned substance from the body. If the MRO feels the quantitative levels determined to be above the established cutoffs do not reflect current use but natural decay, then a negative result may be reported.

b. First Positive Result

A positive result from the MRO or an altered sample will constitute a first positive. The student participant will be ineligible for next 20% of scheduled competitions/performances or remainder of season (whichever is shorter) in each KSHSAA activity they are currently involved in. The specific coach or sponsors individual team/group policy may supersede the requirements of this policy based on prior behavior, but cannot be less than the provisions of this paragraph. Additionally, student participants who have a first positive result will be required to submit to five follow-up drug tests during the next twelve (12) month period and will be required to participate in a chemical assessment program to determine the extent of their drug/alcohol use. The student will be required to follow the recommendations of the chemical assessment.

The cost of the follow up drug tests, chemical assessment and follow-up plan will be the responsibility of the student or student's parents or guardian if under age 18.

c. Second Positive Result

A second positive result by MRO ruling or adulteration will result in the student participant being declared ineligible from all KSHSAA sponsored extracurricular activities as defined in this policy in which he/she is currently participating and denied participation in future KSHSAA sponsored extracurricular activities for a period of 18 school weeks (weeks during summer would not apply, so these 18 weeks can carry over into the next school year). In addition, the student must complete a comprehensive substance abuse program recommended by a certified substance abuse professional. The student will continue or repeat the five necessary follow-up drug screens. The cost of the substance abuse program and follow up drug tests will be the responsibility of the student or student's parent or guardian if under age 18.

d. Third Positive Result

A third positive result will result in the student participant being barred from participation in any KSHSAA sponsored extracurricular activities as defined in this policy for a minimum of one calendar year. In addition, the student must participate in a chemical assessment program and successfully complete a substance abuse program recommended by a certified substance abuse professional at the expense of the student or student's parents or guardian. (The substance abuse program can-not be the same program attended because of the Second Positive Result). At the end of the one calendar year and successful completion of the substance abuse program, the student must complete another drug screen at the student's expense, with negative results. Upon

return to participation in KSHSAA sponsored extracurricular activities, the student will continue or repeat the five necessary follow-up drug screens at their own expense. The period of exclusion from extracurricular activities may continue into the following school year.

e. Additional Positive Result after 3rd Positive

If a student participant would have additional positive results by MRO ruling or adulteration that student would be barred from participation in KSHSSA sponsored extracurricular activities for an additional one calendar year for each positive result.

NON-PUNITIVE NATURE OF POLICY

No student will be penalized academically for testing positive for illegal drugs or banned substances. The results of drug tests pursuant to this policy will not be documented in any student's academic records. Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities, including the school SRO, unless required to do so by a court order, by a valid and binding subpoena or other legal process. In the event of service of any such court order, subpoena or legal process, the student and the student's custodial parent, legal guardian, or custodian will be notified at least 72 hours before response is made by the McPherson USD 418 Board of Education, if such notice is allowed by law. However, to the extent a violation of this policy would also constitute a violation of the District's policy for Illegal and Controlled Substances (JCDAB), the sanctions of Policy JCDAB will also apply.

ILLCIT OR BANNED SUBSTANCES

For the purpose of this policy, the following drug classes, substances or their metabolites that can be tested for are considered illicit or banned for McPherson Unified School District 418 Students:

Alcohol, Amphetamines, Anabolic Steroids, Barbiturates, Benzodiazepines, Cocaine, Metabolites, LSD, Marijuana, Metabolites, Methadone, MDMA (Ecstasy), Nicotine, Opiates, Phencyclidine, Propoxyphene

REMOVAL OF TEST RECORDS

- a. The school district shall remove all records of urine testing and the results thereof from its records within 30 days after the graduation of any student from the USD 418 high school.
- b. The school district shall remove from its records all records of any testing and results thereof within 36 months after the withdrawal of any student from the USD 418 school system.

MHS/MMS Substance Abuse Policy Students Involved in KSHSAA Activities Grades 7-12

Certain standards of social behavior are expected of all students in USD 418. However, since students participating in interschool activities sponsored by the Kansas State High School Activities Association voluntarily make a commitment to become team members and because they are more visible representatives of our school and community, they are expected to meet higher standards of conduct and discipline. McPherson High School and McPherson Middle School endorse a substance abuse prevention policy, which includes random drug testing as outlined in USD 418 BOE Policy, that will aid students in abstaining from the possession and/or use of unauthorized drugs, steroids, alcoholic beverages, or any form of tobacco, intervene early when student use is detected, and take corrective action.

A violation of the policy is defined as possession and/or use of unauthorized drugs, steroids, alcoholic beverages, or any form of tobacco. A USD #418 staff member, police report, positive result from random drug test as defined by USD 418 BOE Policy and/or parent or student self-referral will verify violations. A violation shall result in the participant being suspended from the respective team/group as outlined below. A hearing with the participant, their parents, the coach, and Activities Director or Principal is required. When applicable, the person witnessing the violation would also be present.

1st Violation Consequences:

The student participant will be ineligible for next 20% of scheduled competitions/performances or remainder of season (which ever is shorter) in each KSHSAA activity they are currently involved in. The specific coach or sponsor's individual team/group policy may supersede the requirements of this policy based on prior behavior, but cannot be less than the provisions of this paragraph.

Additionally, student participants who have a first violation will be required to submit to five follow-up drug tests, as outlined in USD 418 BOE Policy, during the next twelve (12) month period and will be required to participate in a chemical assessment program to determine the extent of their drug/alcohol use and follow any recommendations made during the assessment. The cost

of the follow-up drug tests and chemical assessment will be the responsibility of the student or student's parents or guardian if under age 18.

2nd Violation Consequences:

The student participant being declared ineligible from all KSHSAA sponsored extracurricular activities in which he/she is currently participating and denied participation in future KSHSAA sponsored extracurricular activities for a period of 18 school weeks (weeks during the summer would not apply, so these 18 weeks can carry over into the next school year).

In addition, the student must complete a comprehensive substance abuse program recommended by a certified substance abuse professional and follow any recommendations made. The student will continue or repeat the five necessary follow-up drug screens, as outlined in USD 418 BOE Policy. The cost of the substance abuse program and follow-up drug tests will be the responsibility of the student or student's parent or guardian if under age 18.

3rd Violation Consequences:

The student participant will be barred from participation in any KSHSAA sponsored extracurricular activities for a minimum of one calendar year.

In addition, the student must participate in a chemical assessment program and successfully complete a substance abuse program recommended by a certified substance abuse professional, and follow any recommendations, at the expense of the student or student's parents or guardian. The substance abuse program cannot be the same program attended as a result of the 2nd violation. At the end of the one calendar year and successful completion of the substance abuse program, the student must complete another drug screen at the student's expense, with negative results. Upon return to participation in KSHSAA sponsored extracurricular activities, the student will continue or repeat the five necessary follow-up drug screens, as outlined in USD 418 BOE Policy, at their own expense. The period of exclusion from extracurricular activities may continue into the following school year.

Additional Violations after 3rd Consequence:

The student participant would be barred from participation in KSHSAA sponsored extracurricular activities for an additional one calendar year for each positive result.

MMS Eligibility Requirements for Extracurricular Activities

MMS students failing one or more classes will not be eligible to participate in any extracurricular activity.

During each season a grade check will be made two weeks prior to the first competition. Each week there will be additional grade checks made on Monday to determine weekly eligibility. Any MMS student failing one or more classes will be required to attend tutorial. They will be allowed to attend practice after tutorial. Failure to attend or utilize tutorial could result in an additional week of ineligibility and an office referral. A two-week eligibility buffer period will run during the first two weeks of each quarter.

The following are other reasons a student may be deemed ineligible from an extracurricular activity:

- Failing and/or IP in one or more classes
- Serving out of class suspension

Emergency Safety Interventions (Board Policy GAAF)

Emergency Safety Interventions (Board Policy GAAF)

The board of education is committed to limiting the use of Emergency Safety Interventions (“ESI”), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook.

Definitions (See K.A.R. 91-42-1)

- “Emergency Safety Intervention” is the use of seclusion or physical restraint when a student presents an immediate danger to self or others. Violent action that is destructive of property may necessitate the use of an emergency safety intervention.
- “Seclusion” requires all three of the following conditions to be met: (1) the student is placed in an enclosed area by school personnel; (2) the student is purposefully isolated from adults and peers; and (3) the student is prevented from leaving, or reasonably believes that the student will be prevented from leaving, the enclosed area.
- “Chemical Restraint” means the use of medication to control a student’s violent physical behavior or restrict a student’s freedom of movement.
- “Mechanical Restraint” means any device or object used to limit a student’s movement.
- “Physical Restraint” means bodily force used to substantially limit a student’s movement.
- “Physical Escort” means the temporary touching or holding the hand, wrist, arm, shoulder, or back of a student who is acting out for the purpose of inducing the student to walk to a safe location.

- “Time-out” means a behavioral intervention in which a student is temporarily removed from a learning activity without being confined.

Prohibited Types of Restraint

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;
- Using chemical restraint, except as prescribed by a licensed healthcare professional for treatment of a medical or psychiatric condition; and
- Use of mechanical restraint, *except*:
 - Protective or stabilizing devices required by law or used in accordance with an order from a licensed healthcare professional;
 - Any device used by law enforcement officers to carry out law enforcement duties; or
 - Seatbelts and other safety equipment used to secure students during transportation.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on the use of emergency safety interventions. The intensity of the training provided will depend upon the employee’s position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain documentation regarding the training that was provided and a list of participants.

Notification and Documentation

The principal or designee shall provide written notification to the student’s parents any time that ESI is used with a student. Such notification must be provided within two (2) school days.

In addition, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the intervention,
- Length of time the intervention was used, and
- School personnel who participated in or supervised the intervention.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Local Dispute Resolution Process

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings and recommended action to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education.
